OBJECTIVE

A motivated Computer Science graduate skilled in software development technologies, seeking to leverage my technical skills and passion for learning in a dynamic software development role to contribute to impactful projects.

EDUCATION

BACHELOR OF ENGINEERING | COMPUTER SCIENCE – CGPA- 8.21 2020-2024
Hindusthan College of Engineering and Technology

SOFT SKILLS

- Teamwork
- Time Management
- Attention to Detail
- Problem Solving

TECHNICAL SKILLS

MOBILE & Web Development

- **Mobile Development: Flutter (Dart), React Native (JavaScript/TypeScript), State Management (Provider, Bloc, Redux), Responsive UI Design, Cross-Platform Optimization, API Integration (REST, Firebase), Push Notifications, App Deployment (Play Store & App Store).**
- **Web Development (Frontend): HTML, CSS, JavaScript, Tailwind CSS, React.js, React Hooks, Context API, Component-Based Architecture, Performance Optimization (lazy loading, code splitting, responsive design), Modern UI/UX Practices.**
- **Angular Development:** Angular Framework, Dependency Injection, Reusable Components, Advanced Routing, Form Validation, Modular Architecture, Lazy Loading for scalable and high-performance applications.
- **Version Control & Collaboration:** Git (branching, merging, conflict resolution), GitHub (repository hosting, pull requests, team collaboration), Agile/Scrum Workflow, Jira, Postman (API Testing), CI/CD Pipelines.
- **Tools & Deployment:** Docker (containerized development), Firebase (authentication, database, hosting), Cloud Services (basic knowledge), Debugging & Performance Monitoring.

JAVA(Advance)

- **Core Java & OOP:** Strong knowledge of **Object-Oriented Programming (OOP)** concepts (classes, objects, inheritance, polymorphism, abstraction, encapsulation) with hands-on application in real-world projects.
- **Collections Framework:** Extensive experience with the **Java Collections Framework** (List, Map, Set, Queue) including **custom implementations, generics, iterators**, and optimization of data structures for **performance and scalability**.
- Strong knowledge of **JDBC**, **Hibernate**, and **JPA** for data persistence and database interaction.

MYSQL & Oracle

- **MySQL & Oracle:** Skilled in designing, managing, and optimizing relational databases for scalable, high-performance, and reliable solutions.
- **Oracle Database:** Proficient in **database design, SQL query optimization, indexing strategies, stored procedures,**

triggers, and **performance tuning** for enterprise-scale applications.

- **Optimization & Maintenance:** Hands-on with **schema optimization, normalization, backup & recovery strategies, user roles & privileges**, and database security best practices.
- **Integration with Backend:** Knowledge of **JDBC, Hibernate, and JPA** for seamless **Java-based persistence** and enterprise applications.

TOOLS & MONITORING

- **Splunk:** Hands-on experience with **real-time log monitoring, analysis, alerting,** and **dashboard creation** to ensure **system reliability**, fast debugging, and proactive issue resolution.
- **Docker:** Familiar with containerized development for consistent environments and simplified deployment workflows.
- **Postman:** Experienced in **API testing, validation, and automation** to ensure seamless backend communication.
- **CI/CD Tools:** Knowledge of **Continuous Integration and Continuous Deployment pipelines** to streamline development, testing, and deployment processes.

Full Stack Web Development Training

Qtree Technologies | Duration: 6 Months

- Gained hands-on experience in front-end and back-end technologies including **HTML**, **CSS**, **JavaScript**, and **frameworks/libraries** such as **react.js** and **node.js.**
- Developed and deployed dynamic web applications following **Agile** practices.

PROJECTS

ANT I- FACE SPOOFING SYSTEM

Designed and implemented an Anti-Face Spoofing System using **Ultralytics YOLO** and **OpenCV**. The project detects and prevents facial spoofing attempts such as printed photos or videos by analyzing live camera input. Achieved high accuracy in distinguishing real faces from spoofed ones with real-time detection capabilities.

TeamTrack – Real-Time Project Management Platform

- **Stack**: Built with **Next.js, Node.js (Express), MySQL**, and **Socket.IO** for full-stack development.
- **Authentication**: Implemented **JWT**-based role access control for secure user management.
- **Dashboards & Updates:** Developed project dashboards with departmental updates and notifications.
- **Collaboration:** Enabled real-time team communication and updates using **Socket.IO**.
- **Document Management**: Managed document versioning and maintained audit logs for tracking changes.
- **Backend**: Designed **RESTful APIs** with **MySQL** optimization and modular architecture.
- **Version Control & Deployment:** Used **Git/GitHub** and **CI/CD** pipelines for smooth development and deployment.
- **UI/UX**: Created a responsive, interactive frontend for enhanced user experience.

Certification:

Qtree Technologies

Quest of Excellence

CERTIFICATE OF COMPLETION

This certificate is hereby bestowed upon

SURYA M

For the exceptional Performance that has led to the Successful Completion
Of The **Java Fullstack - Training** Course
at Qtree Technologies Coimbatore, in the duration
Mar 2024 to **Jun 2024**

S.Hari
Academy Director
